Prepared by the Division of Legislative Information for the Senate Bill **AS ORIGINALLY FILED**. For more detail, see Senate Bill Analyses, if available, prepared by the Senate's professional committee staff.

SB 966 Minors/Protection Online by Senator Fasano

Requires entities that provide access to the Internet to make available to consumers in this state a product or service that enables the subscriber to regulate a minor's use of the Internet, if it is reasonably and commercially available for the technology used by the subscriber. Provides requirements for such a product or service including, but not limited to, enabling a subscriber to block access to specific websites or domains disapproved by the subscriber or restrict access to specific websites or domains approved by the subscriber or Internet access provider.

Requires interactive computer services to take necessary steps to preserve records and evidence upon request of law enforcement agencies investigating specified crimes involving minor victims. Requires retention of such records and information for specified periods. Provides for compliance without compulsory legal process with any criminal investigation regarding certain offenses involving minor victims and involving immediate danger of death or serious bodily harm.

Requires interactive computer services to make certain reports to the National Center for Missing and Exploited Children when a violation of child pornography laws is evident.

Authorizes the Department of Law Enforcement (FDLE) to make electronic mail and instant message name information collected from the sexual offender registry available to interactive computer services for the purpose of comparing registered users and screening potential users against the list provided by the FDLE. Provides that interactive computer services are not civilly liable for taking or failing to take certain actions based on a good faith belief that a user is listed in the state sexual offender registry or the National Sex Offender Registry.
